**CY 2023 Greenhouse Gas Emissions**

Easy Dynamics Corporation measured our greenhouse gas emissions for Calendar Year 2023 for all facilities leased and controlled by the company.

Easy Dynamics’ GHG emissions report provides measurement of our Scope 1 and Scope 2 emissions for CY 2023. Easy Dynamics attests that the Scope 1 and 2 GHG emissions were calculated in accordance with the GHG Protocol Corporate Accounting and Reporting Standard.

In calendar year 2023, Easy Dynamics’ Scope 1 and 2 emissions measured approximately 59.91 metric tons CO2e. The entirety of Easy Dynamics’ emissions are from the electricity used in the facility we lease, which is commercial office space.

**Reduction Targets**

Easy Dynamics Corporation is committed to further reduce our greenhouse gas emissions and our impact on the climate and will establish annual reduction targets beginning in 2023. We believe that establishing and meeting these short and mid-term goals will enable us to achieve a reduction in our emissions to net-zero by or before 2030.
